

PROFESSIONAL SUMMARY

Detail-oriented and motivated Python Developer with strong knowledge of Python programming, Object-Oriented Programming (OOP), and web development. Skilled in building web applications using Flask, working with databases like MySQL and SQLite, and developing RESTful APIs. Strong problem-solving ability with a focus on writing clean, efficient, and scalable code. Eager to start a career as a Python Developer.

TECHNICAL SKILLS

Programming Languages:	Python, Java, C
Web Technologies:	HTML, CSS, JavaScript
Frameworks:	Flask, Django (basic)
Databases:	MySQL, SQLite
Tools:	Git, GitHub, Visual Studio Code
Concepts:	OOP, DBMS, REST APIs, Debugging, Problem Solving

PROJECT EXPERIENCE

To-Do Web Application

Python, Flask, SQLite

- Developed a dynamic task management web application using Flask framework.
- Implemented CRUD operations to manage 50+ tasks efficiently.
- Integrated SQLite database for structured data storage.
- Tested and debugged application to ensure smooth performance.

Personal Portfolio Website

HTML, CSS, JavaScript

- Designed and developed a responsive portfolio website to showcase projects and skills.
- Improved user navigation using structured layout and clean design.
- Deployed project for online access.

REST API Development

Python, Flask

- Built RESTful API with GET and POST endpoints.
- Handled client-server communication efficiently.
- Tested API endpoints using Postman.

EDUCATION

Bachelor of Computer Applications (BCA)

Vidyavahini First Grade College | Expected 2026

Relevant Coursework: DBMS, SQL, Web Development, Programming in C

CERTIFICATIONS

- Getting Started with Artificial Intelligence – IBM SkillsBuild (2026)
- React JS Course Completion – Infosys Springboard (2024)
